PLAY AREAS

## Make their lives... Child's play!

Welcome to our enchanted world of laughter, discoveries and endless adventures!

We are proud to present our new collections of play areas, designed and manufactured with passion in France, to stimulate the imagination and promote the happiness of all children.

We firmly believe that play is an essential source of learning, fostering physical, social and emotional development.

Investing in a HUSSON play area means investing in children's joy, in creating dynamic and welcoming spaces for everyone, and in equipment combining creativity, rigour, safety and durability.

Together, let's create innovative "tailor-made" facilities accessible to everyone using the know-how and resources of Husson Design Studio.

Our regional sales teams, experts in matters of play and sports facilities are available to advise you, from the design phase through to installation of your bespoke play area.

Welcome to the colourful and exciting HUSSON's colourful and exciting world, where every child can dream big and play even bigger!

And now, it's your turn!

## “I, YOU, THEY, WE PLAY TOGETHER”

**Every child and every parent deserves to be welcomed on your play areas and enjoy their activities.**

To fully welcome children with disabilities and allow them to socialize naturally, play areas must be designed and built from surfaces, spaces and equipment adapted to their needs. At the same time, parents must be reassured about the safety and good design of these structures.

That's why HUSSON has been working with specialised centres and municipalities since 1993 to improve access to play areas for all children.

### **BE SEEN, BE HEARD, HIDE...**

The design of play areas should encourage certain attitudes promoting inclusiveness. For example, by allowing children to be seen and heard, and to enjoy facilities that give them the opportunity to play together.

If the play area is well laid out and adults can interact, this place will allow everyone to have fun.

### WHAT UNITS TO MAKE PLAY AREAS INCLUSIVE?

The design of the play area must be accessible to all children, whatever their physical abilities. How? By installing access ramps, our exclusive DUNE concept, signs and tactile units, manipulative and auditory panels – the possibilities are endless! In this way, inclusive play areas take account of factors such as:

- Visual impairments; 
- Hearing impairments; 
- Physical or cognitive impairments. 

### SAFETY FIRST AND FOREMOST

Given the impairments or handicaps to be considered, a safe space should be created using materials and equipment designed with this in mind. The design of an inclusive play area must allow access for all children, whether or not they are disabled. Our HUSSON advisors will guide you to the best design for your play area.

# OUR ENVIRONMENTAL COMMITMENTS

## SUSTAINABLE DEVELOPMENT: a pioneering and committed company!

The level of greenhouse gas (GHG) emissions has a definite influence on global warming, which has many environmental consequences.

**We all have to take action!**

**HUSSON didn't wait until 2024 to be committed to sustainable development!**

Since the company's inception, HUSSON equipment has been renowned for its exceptional durability. Aware of what environmental protection means and to enable us to assess the impacts of our activities, since 2014 we have undertaken to comply with the international reference standard, **ISO 14001** and to be periodically audited and certified by an independent body.

**Our commitments to sustainable development include:**

- 1. The durability of our products**
- 2. Reducing our environmental impacts**
- 3. Our voluntary CSR policy: Corporate Social Responsibility**

### 1) Our commitments to the durability of our products:

\* **Eco-design:** robustness and longevity are deeply rooted in the culture of HUSSON designers: with vast experience, they know that for open access play area equipment, you can't have one without the other. Numerous HUSSON-equipped play areas with a lifespan, in good condition, exceeding 30 years!

\* **The resistance of our equipment:** installed in some forty countries, HUSSON equipment experiences complex climatic conditions that therefore require the use of premium materials and surface coatings. [Refer to page 12.](#)

\* **Innovation** promoting sustainable development.

\* **HUSSON modular construction system:** a bit like a giant Meccano set, it's one of the best assembly systems on the playground equipment market. It is quick to assemble, and simple and economical to maintain, but play areas can also be transformed, dismantled, moved and reassembled (reused), and more.

## 2) Our commitments to reducing our environmental impacts

- Periodically conduct a transparent carbon audit and therefore keep “accounts” of our net greenhouse gas emissions and reduce them.
- Reduce our energy and raw materials consumption.
- Conduct an objective life cycle analysis (LCA) of our main products and reduce their environmental impacts.
- Make priority use of recycled and recyclable raw materials.

For example, steel is now almost 100% recycled. By choosing steel, you are sure to use a material that is durable, infinitely recyclable and already recycled.

Other examples:

- the polymers (HDPE) used by HUSSON (panels, rotomoulded slides, etc.) are practically 100% recyclable,
- we invest in R&D to offer more and more sustainable polymer components that include at least 30% recycled raw material and/or bio-sourced and 100% recyclable material.
- Use renewable materials such as softwood, bamboo or acacia and seek wood varieties derived from responsibly managed forests.
- With our customers and regional managers, design play areas that integrate easily into the most diverse environments.
- Work with local suppliers and contractors as much as possible.

## 3) Our CSR policy: Corporate Social Responsibility

HUSSON is built around strong values and ethical principles that are part of its DNA.

Our corporate social responsibility towards major environmental, social and economic issues is therefore a priority challenge for us.

Since 2023, we have also been committed to a voluntary CSR policy aimed at strengthening our core values, reducing the negative impacts of our activities on the environment and further reinforcing the positive impacts for all stakeholders (customers, employees, suppliers, users, etc.).

1920: "Wrought Iron"

2024: Ultra-modern factory

New 2-headed welding robots

## IT IS BY FORGING THAT WE BECOME BLACKSMITHS!

**1920:** Emile Husson was a blacksmith, with passion for a job well done.  
**For 40 years,** Husson has specialised in **designing, manufacturing, marketing and installing** play and sports equipment.

Our aim is to provide the safest and most comfortable conditions to welcome children to **play areas**, teenagers to **multi-sports equipment**, parents and grand-parents to **Fitness equipment, street furniture and grandstands**.

**Today,** HUSSON is the world's leading manufacturer of team sports and leisure facilities, with 115 highly qualified employees serving more than 30,000 loyal customers and architects across five continents.

Automatic 2D and 3D laser cutting

Joinery workshop equipped with machining centres

## INDUSTRIAL STRENGTH

Two factories with more than 21,000 m<sup>2</sup> of covered space in Alsace. Through its policy of continual investment, Husson boasts an ultra-modern manufacturing plant unrivalled in its field, with highly automated welding, joinery, rotomoulding, painting and pre-assembly workshops.

## LEGENDARY RUGGEDNESS

HUSSON play area equipment is known for its exceptionally long life, often exceeding 30 years, for particularly simple and very economical maintenance, and therefore for a very competitive overall cost.

Ruggedness and safety are deeply rooted in the culture of HUSSON designers: with vast experience, they know that for open access play area equipment, you can't have one without the other.

**HUSSON designs and manufactures its equipment with the safety of its customers and users in mind.**

## MAXIMUM SAFETY

With 40 years' experience in designing, manufacturing, installing and maintaining play and sports equipment, we only offer very safe products. Better: our requirements exceed many of the points in current standards!

To do so, HUSSON products are designed and tested to meet a wide range of European regulations and standards and are certified by one or more independent laboratories, including: PRELUD, TÜV, POURQUERY, SOCOTEC and more

\* Equipment and structures are entirely designed, manufactured and produced in our factories; HUSSON's strategy also focuses on follow-up through marketing to installation, with efficient and fast after-sales service.

\* Husson materials and surface coatings meet criteria for safety, quality and environmental friendliness.

\* Beyond technical, safety and durability aspects, the materials and coatings also meet aesthetic expectations. They are chosen for their technical and functional characteristics, but also with respect for design, within an approach to sustainable development.

*\*refer to page 192 for detailed descriptions and specifications of our materials*

Husson Design Studio

Vous l'avez rêvé ...

... nous l'avons réalisé !

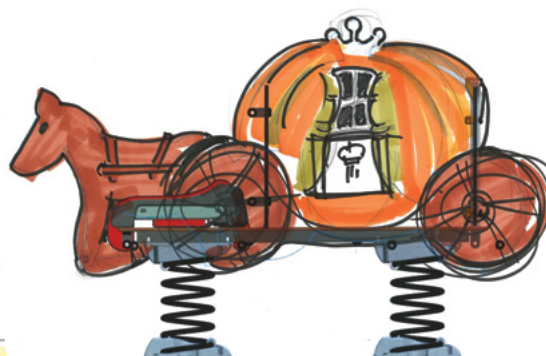

To create the most elegant projects, HUSSON makes the know-how of **Husson Design Studio** available to the town's creators and stakeholders, project managers and project owners. You create and, collaborating closely with our engineers, designers and technicians, you have significant resources available for design, modelling, calculations, prototyping, manufacturing and "turnkey" layout.

A true innovation laboratory, **Husson Design Studio** is there to design and implement your specific projects, by combining ideas, resources and joint design.

**Feel free to contact our staff for any tailored project requirements!**

*Husson Design Studio*

# SUCCESSFUL FACILITIES

- 1 Little ones' area
- 2 Rest area
- 3 Medium and larger children's area, Wow guaranteed!
- 4 Out&Fit fitness area
- 5 Multisports area
- 6 Cross-training area

**HUSSON** designs and manufactures its play area equipment.

Our company is located in Alsace and has 115 people, including 12 engineers and drawing office technicians, **offers a turnkey service:**

- Design
- Drawings
- Manufacture
- Delivery
- Installation
- Servicing/Maintenance

Trust Husson, your single point of contact: one company, HUSSON, acting as a single point of contact, from design to delivery, including manufacturing and installing the play area. Our regional manager will be on-site throughout construction to ensure the equipment is fitted and finished to the highest standard.

**Husson's technical advisors** have experience in the problems affecting public spaces and are very close to their customers, helping them design and implement their facilities projects.

**We support our customers throughout each project with comprehensive expertise to help you:**

- Select a suitable site
- Consult future users
- Meet the overall budget (equipment, installation, safety flooring, furniture, access paths and landscaping, advice, control, etc.)
- Define suitable play areas with your HUSSON representative
  - > provide play areas suitable for the usual age categories ( small, medium, large, teenagers, etc.) and corresponding play ranges (Piccolo, Cameleo, Vertigo, etc.).
  - > remember to provide facilities for adults and ensure access for children with disabilities
- Select the right materials for equipment based on its use and occupancy
- Provide colour themes and palettes for harmonious integration into the environment
- Supplement the layout of the play area with sports equipment... for everyone!

# OUR THEMES

We attach particular importance to creating themes for our play areas. This very detailed theming of our products makes it possible to adapt to a site (colours, etc.), an atmosphere or an environment but also to create innovative facilities encouraging the development of children's imaginations and real role-play games. This means our products are available across all our ranges, relying only on children's (and parents!) imaginations with strong themes.

FOREST

*Take a deep breath and let the forest tell you its story.*

FANTASY

*Where dreams come to life, reality becomes extraordinary.*

CARTOON

*Life is more fun in technicolor.*

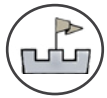

## AQUATIC

*Every drop of water tells an infinite story.*

## HISTORY

*History is the canvas on which time paints its masterpieces.*

## PERSONALISED

With a wide choice of colours for each material used (see page 192), create your "tailor-made" theme!

## HEAD FOR ADVENTURE!

Welcome to the captivating world of MAGIC'color XS, designed especially for toddlers aged one and over.

Compact, themed games that invite children to explore stimulating worlds such as the enchanted village, pirate's island, space station and many more. They carry children on a fun journey through these imaginary worlds. Whether by becoming an intrepid adventurer, a space explorer or a treasure-hunting pirate, toddlers will be immersed in a world filled with fun, educational discoveries and entertainment.

### Products benefits

- Accessible from 1 year old, these themed play areas encourage the imagination.
- Ideal for schools, nurseries, indoor or outdoor shopping centres, and more.
- Many fun activities in an optimized space.
- Delivery pre-assembled for easy, quick and trouble-free installation!

## COMPACT PLAY AREAS, BIG ADVENTURES: EXPLORATION OF MINIATURE WORLDS!

Welcome to the captivating world of our MAGIC'color Nano role-playing games, specially designed to spark toddlers' imagination

Varied themes, such as the panda's house, the conquest of space, the dragon's dungeon, the ocean or the adorable pre-assembled cottages, invite children to explore and let their imagination run wild.

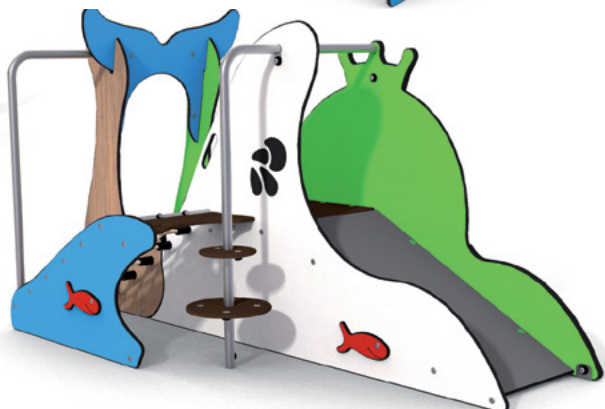

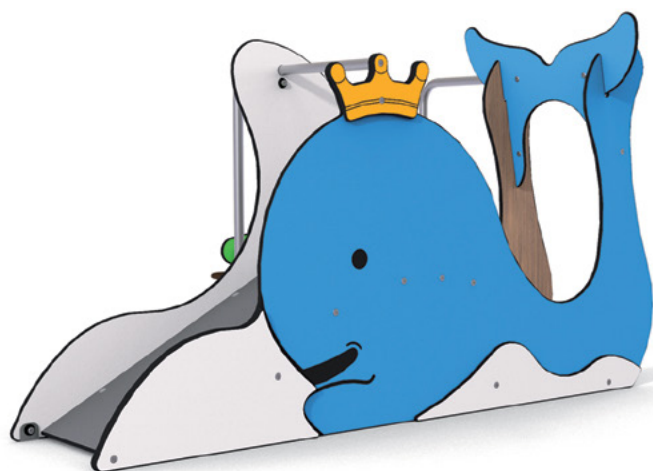

In these miniature worlds, toddlers can become fearless astronauts, kindly panda keepers, courageous space adventurers, or even brave knights ready to face dragons, all with games tailored to their motor skills.

These compact themed games are designed to foster creativity, social development and fun learning. Children are encouraged to solve puzzles, create stories and develop essential skills while having fun.

### Products benefits

- Accessible from 1 year old, these themed games allow fast, instant play, alone or with others.
- Dense, "clear" fun activities in an optimized and safe space.
- Ideal for nurseries, schools, green spaces, etc.
- Designed to be erected without special safety matting.
- Delivered pre-assembled for easy, quick and trouble-free installation!

## THE DELIGHTFUL THRILL WHEN YOU TAKE THE CONTROLS!

Children's imaginations are fed by simulation, enchanted imitations of heroic or adventurous adult activities. MAGIC'color craft and vehicles invite you to this role-playing game, with strength and colours for 2+ year olds.

In the twinkling of an eye, children identify with their characters and build a whole world of adventures.

Nothing is more alluring than a vehicle, a boat, an aircraft... Getting on board, watching the horizon, zigzagging in the desert, operating construction machinery, loading the tractor and its trailer, speeding down the slide, giving orders to the crew – there's plenty to have fun with. Slip your moorings and off we go!

### Products benefits

- Accessible from 2 years old, these themed games allow fast, instant play, alone or with others.
- Immediately thrown into the themed world by a strong visual identity.
- Both director and actor of their play area – The children are at the controls!
- Ideal for schools, green spaces, outdoor hospitality, etc.
- Delivered pre-assembled for easy, quick and trouble-free installation!
- Most models are available either with or without slides – ask us.

# Piccolo

## IN THE LAND OF SMALL ADVENTURERS !

Welcome to the exciting world of the Piccolo range, which is modular, multifunctional and specially designed for children from 2 years old.

These versatile play areas offer an exceptional play experience with a combination of climbing, sliding, bridges, fun signs and much more. Each play component is carefully designed and thought out to encourage the child's physical, social and cognitive development. In this way, they can embark on imaginary adventures by exploring gripping themes, whether exploring the secrets of the enchanted forest, conquering the oceans or setting out on an exciting fantasy adventure.

### Products benefits

- Multifunctional play areas specially designed for children over 2 years of age.
- Numerous themes, worlds and colours available to blend into the most varied environments.
- 100% modular and configurable to adapt to different spatial uses and requirements.
- Different types of disabilities (motor, sensory and cognitive) are considered.
- More than 120 components available, making an infinite range play combinations possible!

# Cameleo

## WELCOME TO THE "BIG" WORLD!

Cameleo is THE ultimate range of modular, multifunctional and themed playground equipment for children from 3 years old!

With multiple apparatus for climbing, sliding, challenging transitions and much more, children have the opportunity to thrive, let off steam and have fun while developing essential skills. Immersed in gripping, children are invited to explore imaginary worlds full of discoveries. Conquer a medieval castle, relive legends of fantasy worlds, set off on an adventure into the depths of the sea or venture the heart of the forest and its majestic trees – these are just examples of exciting adventures that will stimulate their imagination and creativity.

### Products benefits

- Multifunctional play areas specially designed for children over 3 years of age.
- Numerous themes, worlds and colours available to blend into the most varied environments.
- 100% modular and configurable to adapt to different spatial uses and requirements.
- Different types of disabilities (motor, sensory and cognitive) are considered.
- More than 200 components available, making an infinite range of play combinations possible!

# CAMELEO XL

## MONUMENTAL AND ICONIC STRUCTURES FOR EVERYONE!

Welcome to our range of spectacular games, where the extraordinary becomes accessible to everyone! Prepare yourself for a guaranteed “Wow” effect with the CAMELEO XL range, which defies the imagination.

Whether children are budding adventurers or prefer a challenge, this range offers awe-inspiring play areas that will leave you speechless.

Climb, scramble, slide and explore extraordinary environments, specifically designed to stimulate creativity and enthusiasm.

This range will offer children unforgettable moments, between adrenaline rush and quiet adventure. An epic adventure in perspective, where dreams come to life and every moment is an opportunity to marvel. Prepare them to experience incredible moments they'll never forget.

### Products benefits

- Multifunctional play areas specially designed for children over 4 years of age.
- Equipment reaching heights of 5 m to over 10 m... Wow guaranteed!
- Limited footprint for playing at heights.
- Numerous themes, worlds and colours available to blend into the most varied environments.
- Cameleo XL employs the wide range of CAMELEO components, enabling tailor-made XL configurations.
- Specially designed and optimized management of flows.

# SOLO+

*Agility*

## BALANCE, MOTOR SKILLS AND AGILITY FOR EVERYONE!

Alone or with others, SOLO+ agility play equipment is a real invitation to action and adventure.

Stimulates agility, balance, motor skills and coordination of children in a fun and entertaining way.

It gives children the opportunity to outdo themselves while encouraging their growth and confidently pushing their limits.

### Products benefits

- Lets you play... alone or with others!
- Balance and motor skills course, climbing games, ropes and trampolines, children are ready to outdo themselves!
- Varied play equipment designed for all ages.
- Installed individually or combined with multifunctional structures.

# SOLO+

## Aménagement

### ESSENTIAL EQUIPMENT TO COMPLETE THE PLAYGROUND AND MAKE IT SAFE!

This equipment is designed to be the ideal partner of the playground, intended to complete it and guarantee its safety. The aim is to create an environment where children can thrive, explore and play confidently. Complementary equipment adds an extra fun dimension to the playground.

In parallel, fences around the equipment, cushioned flooring and signage, every detail is designed to ensure the safety of every child who ventures onto the playground. When safety and fun come together, playgrounds become spaces where children can grow, learn and thrive.

#### Products benefits

- Fun panels, additional sports equipment, furniture, fencing and signage, for a playground perfectly laid out to be completely safe!

## All our structures can be customized in a wide choice of colours!

### METAL PARTS

1 • 30 standard shades available in a choice of finish:

- Smooth gloss

- Fine texture

2 • Choice from the complete RAL colour chart palette (On request).

3 • Choice from the palettes of our suppliers specialized in **special effects** (metallic, textured, sanded, etc.) (On request).

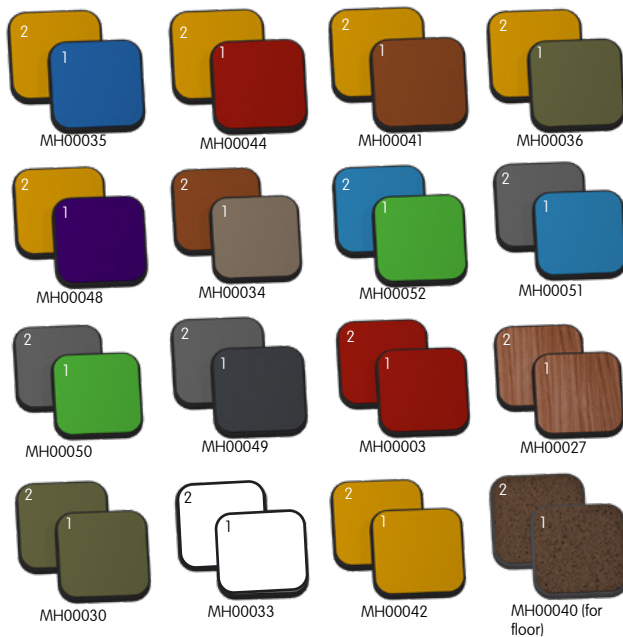

### ROPES

### CONNECTING PARTS

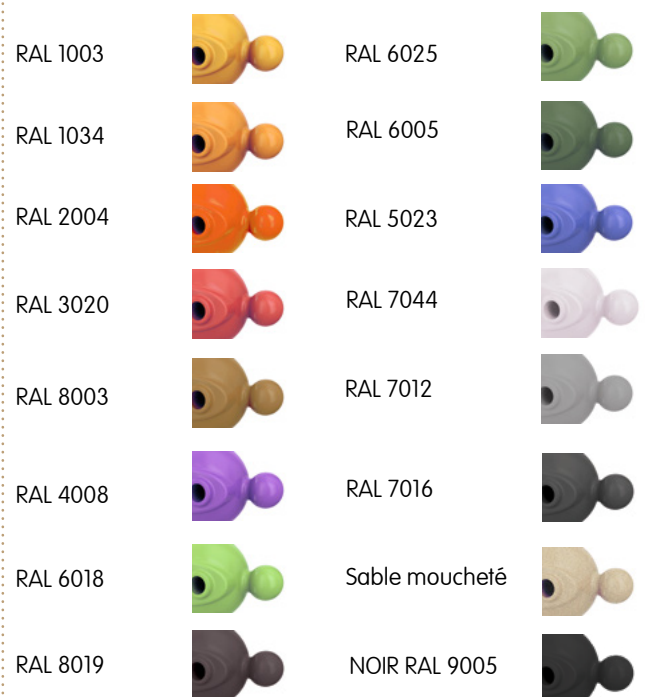

### HPL PANELS

Reversible HPL panels - A front face (1) and a back (2) face.

### ROTOMOULDED PARTS

Similar to RAL

**Steel frames, hot-dip galvanized** inside and outside tubes +

Powder-coating (oven-cured polyester powder paint): Made of steel tube, diameter 89 mm thickness 2.9 mm, type E24, hot-dip galvanized (dipping in a bath of molten zinc) and **oven-cured powder-coating** to prevent attack by the weather. Paint harmless for people and the environment – Lead-free and solvent-free (in line with the criteria of European Directives 67/548/EEC and 99/45/EC)

**Many components entirely made of stainless steel**, especially for climbing and access elements: Made of passivated 304L stainless steel, diameter 34 mm or 89 mm (depending on the apparatus).

**HPL floors** (high-pressure solid laminate), **particularly strong** (thickness 14 mm), rot-resistant, poorly flammable, fastened to a metal frame.

*Note that these are treated with a special non-slip coating.*

**HPL cladding panels** (high-pressure solid laminate), **particularly strong** (thickness 14 mm), rot-resistant, poorly flammable and through-coloured.

**Steel-core nets** coated with a thick polyamide sheath: Combined rope, 6 strands of diameter 2.5 mm (total diameter = 16 mm).

*Equipment parts (ropes, steel parts) are easy to repair using an exclusive assembly system allowing each part (rope, connecting parts, etc.) to be changed without having to change the whole net apparatus.*

**Thermoplastic components (some slides and accessories, etc.):** Components with complex shapes are produced by rotomoulding. For optimum solidity, Husson uses only thick, premium grade materials (HDPE, High Density PolyEthylene), through-coloured and easy to maintain.

**Assembly:** Using multi-directional cast aluminium clamps: Identical assembly system used across the whole Husson range, making maintenance easier.

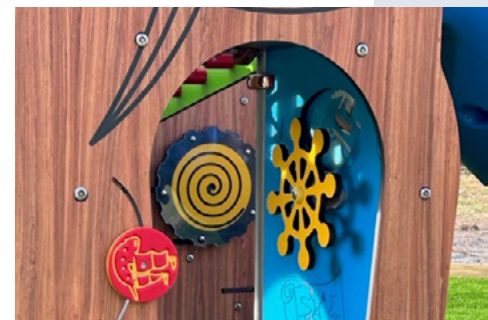

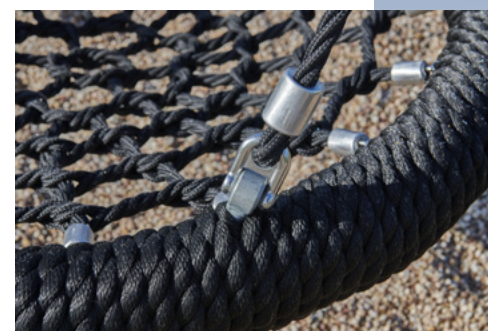

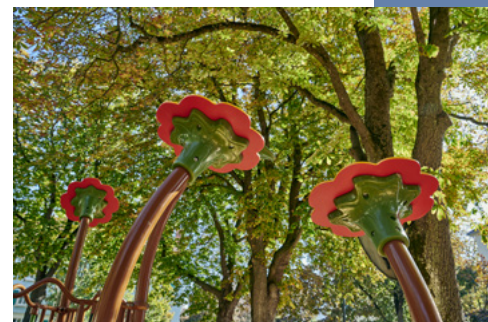

*Each element can be dismantled individually and easily replaced thanks to detailed assembly instructions. All elements are listed in a specific parts list for easier description. For instance, HPL panels can be interchanged to make the equipment safe immediately.*

**Fastenings:** The very nature of our fastenings (stainless steel screws embedded in cast aluminium collars) means we can guarantee complete safety when using our playground equipment, without requiring removable screw protectors that, in our experience, easily come loose and cause recurrent defects.

Our play equipment is mounted on plates, simplifying adjustment during assembly and allowing the play area to be moved easily, if necessary.

**Special stainless steel bolts** prevent loosening and vandalism (exclusive Husson tool).

By using materials extremely resistant to climatic conditions and selected for intensive open-access use, **all our equipment is covered by a long warranty period.**
